PROFESSIONAL SUMMARY

Full Stack Developer with 1+ years of hands-on experience building responsive, production-ready web applications using React, Node.js, TypeScript, and modern cloud tooling (Supabase, Vercel, PostgreSQL). **5x hackathon runner-up** with 20+ hackathons completed, leading rapid-prototyping teams under time pressure. Actively expanding into AI/ML and Data Science through the IIT Roorkee + Microsoft Elite Program.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, SQL, HTML, CSS
- **Frameworks & Libraries:** React, Next.js, Node.js, Express.js, Tailwind CSS
- **Databases & Cloud:** PostgreSQL, Prisma, MongoDB, Supabase, Vercel, Render, Railway
- **Tools:** Git/GitHub, REST APIs, JWT/bcrypt Auth, Zod, Google Cloud Console
- **AI/ML (Exploratory):** Agentic AI (CrewAI), Prompt Engineering, GenAI API Integration

EDUCATION

Bachelor of Technology in AI — *Gandhinagar University* Expected 2029

EXPERIENCE

Full Stack Developer —*Software Consulting & Freelancing* Feb 2026 – Present | Remote

- Architected and shipped a fully responsive institutional website for Eklavya Group Tuition (Tushar Shah) across desktop, tablet, and mobile.
- Owned the complete development lifecycle — planning, development, testing, deployment, maintenance — and improved user engagement through redesigned UI/UX.

Team Leader & Core Builder — *National & International Hackathons* Dec 2025 – Present | Remote / On-site

- Led technical architecture and rapid prototyping across **20+ hackathons**; **5x Runner-Up**, including 4th rank at Cognivia Hackathon (PDPU) and the Finalist of Hack Baroda 2026.
- Currently a finalist in 2 Odoo Hackathons (Odoo Gandhinagar + Odoo x LDCE) and competing at Hacker House Goa 2026 and Indian Army Terrier Cyber Quest 2026 (AI Kavach track).
- Successfully completed & Certified for ISRO Innovation Challenge | Flowzint | ViCodathon 2026 | India AI Impact Buildathon | PU Code Hackathon 3.0
- Structured technical onboarding on Git version control and cloud deployment pipelines to ensure production readiness under pressure.

PROJECTS

PhotoFolio — *Next.js, Supabase, AI image tagging/search, collaborative albums.*

- Built an AI visual cloud that organizes, tags, searches, and de-duplicates scattered photos/videos for individuals and groups. Solved AI tagging and duplicate detection at scale without slowing uploads by balancing client side vs server side processing in a backend first arch.
- Optimized upload speed, tagging accuracy learned backend-first design and client/server workload balancing.

TalkToLead — *React, Node.js, Express.js, Supabase, REST APIs.*

- Built an AI lead qualification platform that helps businesses instantly engage, qualify, and manage inbound leads.
- Built reliable concurrent chat and lead-state handling; learned how backend state and API design directly affect real-time UX.

Glob Trotter — *Next.js 16, React 19, TypeScript, PostgreSQL/Prisma, Tailwind, Zod, Recharts.*

- Built a collaborative multi-stop travel itinerary planner with drag and reorder planning and live budget sync for agencies and clients.
- Built one shared budget/date engine across client and server so totals can never disagree; optimized city/activity search to **2.6ms p50** using PostgreSQL trigram indexes.

Viral Content AI — *Python, CrewAI, Next.js, Gen AI APIs*

- Built a multi-agent AI workflow that automates trend research and content generation via LLM APIs for Influencers & Content Creators.
- Resolved multi-agent coordination and output-consistency issues by designing structured pipelines, refining prompts, and adding validation layers.

LEADERSHIP & CERTIFICATIONS

- Campus Ambassador of E-Cell IIT Bombay (2026–27)
- Top Prompt Creator by Google Gemini Student Ambassador Pitch Night Edition
- **Microsoft SQL Certification Training** — Completed
- **IIT Roorkee + Microsoft Elite Program in AI & Data Science** — In Progress
